

Pvt. 1st Cl. Donald A. Hoffman, ex-SADU, now 7th Svc. Co., S. C., Ft. Sam Houston, Tex., writes us in part as follows:

"QST is starting out again fine. I get my copies OK thru my home address, Akron, O.

Guess I'm stuck for service down here a while longer till the "emergency" is off.

Here's a little idea—run a suggestion that the fellows with long distance ham receiving sets make themselves up a form for post cards something like this and send

To
Heard your station.....
Dates..... Hours.....
Audibilities.....
Working
Apparatus I use.....
Do you hear me?
Call.....

each time a new long distance station is heard. In this way numerous relay possibilities will be discovered where some were careless and didn't notify stations heard formerly. Fellows receiving cards would keep them on file, etc. I used to do this and got a lot of thanks for it from the ones I wrote the cards to."
